

Quality Statement

PBG GLOBAL specialises in pharmaceutical grade hemp extract and isolate production via extraction, processing, refinement and standardisation. We provide consumers with the highest quality products by assuring their performance, consistency, safety and value. This commitment is rooted in our company values and is essential to our continued growth and success.

Our strict iQ quality control system covers the whole production process from seed until delivery of end product. The following standards are put in place to support us in our aim of total customer satisfaction delivering standardised pharmaceutical grade hemp extracts and isolates:

- **GlobalGAP** certified farming produce from EU approved and certified *Cannabis sativa L.* non-GMO varieties rich in target cannabinoid, flavonoid and terpenoid content;
- **GMP** and **ISO 22000** certified production process, using only GRAS (Generally Regarded as Safe) solvents.

Our products contain no known allergens, no GMO enzymes, no added preservatives, no residual solvents, no artificial flavouring or colouring - just naturally occurring elements found in the plant.

Ervin Ivanov, M.D., PhD
Head of Research and Development
